<b>3. Shooting with both hands</b>	<p>Hold the ball with the elbows bent, and place the ball not lower than the chest and not higher than above the forehead. The elbows should be placed slightly wider than or at shoulder-width. Spread the feet apart in staggered or even stance at about shoulder-width and bend the knees. Push both feet hard off the ground simultaneously when shooting, and then push the ball forward with both hands at the same time. Shoot the ball when your arms are almost fully extended. The arms and fingers should be pointed at the basket after the shot.</p>

Spread the feet apart in staggered stance and bend the knees with the centre of gravity placed behind. Lift the arm at the side of the front foot and keep an arm's distance from the attacker. Try to defend more aggressively.		
<b>6. Penalty shot</b>	Stand before the penalty spot, and hold the ball with both hands with the feet apart in staggered stance. Keep the centre of gravity low, and switch it from the back foot to the front foot. Then, drive the whole body forward with the back leg and jump using the opposite leg simultaneously. Push the ball towards the basket with both hands. Shoot the ball when your arms are almost fully extended. The arms and fingers should be pointed at the basket after the shot.
